DEPARTMENT OF CORPORATIONS AND TAXATION,
STATE HOUSE, BOSTON, March 24, 1952.

As Commissioner of Corporations and Taxation, I submit herewith the Forty-first Annual Report on the Statistics of Municipal Finances of the cities and towns of the Commonwealth for the financial year 1949, including also tables showing the net funded debt of all cities and towns on January 1, 1951.

This report was prepared under the direction of Mr. Francis X. Lang, Director of Accounts, and follows the form established in previous years, presenting data relative to the finances of the municipalities of the Commonwealth, together with tabulations compiled from the returns made by the several city and town officials.

HENRY F. LONG,
Commissioner of Corporations and Taxation.

REPORT ON THE STATISTICS OF MUNICIPAL FINANCES—1949

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation,
State House, Boston.*

SIR:— I submit herewith the Forty-first Annual Report on the Statistics of Municipal Finances. The Fortieth Annual Report included statistics for the year ended December 31, 1945, and summaries of funded debt issued in each year from 1940 to 1947 inclusive. I am presenting in this report summaries of funded debt issued during the years 1948, 1949, and 1950, and statistics for each city and town for the year 1949.

The information in this report is gathered from the classified accounts of receipts and payments returned by the accounting officers of cities and towns, on schedules furnished by the Director of Accounts in accordance with Section 43 of Chapter 44A of the General Laws. These returns are carefully edited in the office by comparison with printed reports of the cities and towns and the reports of audits made by the Division of Accounts.

In addition to the tables covering the year 1949, the analysis section of the report includes a table giving a comparative statement of valuation, revenue for current charges, and current charges against revenue for the years 1945 and 1949; a table giving a comparison of aggregate municipal indebtedness for 1910, 1944, 1945, and 1949; a table giving aggregate municipal indebtedness, divided into general and public service enterprise debt, and the ratio of debt to valuation for each year from 1910 to 1949 inclusive; and a table giving the yearly increase or decrease of assessed valuation and net funded or fixed debt, and the percentages of increase or decrease from 1910 to 1949.

On pages xviii to xxi we present analysis tables showing the total revenue for current charges, the current charges against revenue, and the excess or deficiency of revenue for each of the years 1942, 1943, 1944, 1945 and 1949 for all the cities, and the towns over 5,000 in population. These tables show that in 1949 all the cities with the exception of Boston, Cambridge, Somerville, Malden, Everett, Chelsea, and Revere showed an excess of revenue above the current charges against revenue. For the towns over 5,000 in population, the table shows that each of the one hundred towns has shown an excess of revenue for each of the years presented in the table.

On pages xxii to xxiv are tables showing the distribution of charges against revenue into maintenance, interest, and debt requirements for the year 1949 for the cities and the towns over 5,000 in population, with the percentage expended for each. The tables are sometimes called the pay-as-you-go tables and reflect the extent to which cities and towns may be succeeding in efforts to reduce the incurrence of debt. Of the seventeen of the 39 cities the amount of current charges for interest and debt was less than five per cent of the total, and in fifty-four of the 100 towns over 5,000 in population, the percentage for interest and debt was less than three per cent. In Palm Beach, Seekonk, Orange, and Bourne there were no charges for interest and debt.

In addition to the statistics covering the year 1949 in the body of the report, presented on pages xxxi to lviii tables showing the amount of net funded debt, inside and outside the general debt limit on January 1, 1949, January 1, 1950 and January 1, 1951. The net funded debt on January 1, 1948 was included in the Fortieth Annual Report. Since the tax title debt has been entirely redeemed, no column for tax title debt is included in the tables for January 1, 1950, and January 1, 1951.

DEBT.

On January 1, 1949 the net funded debt, exclusive of tax title loans of all cities and towns was \$215,679,218. The net funded debt on January 1, 1948 was \$186,884,470. There was thus an increase in the net funded debt of \$28,794,770 during the year 1948. Of the total amount of \$215,679,218 outstanding on January 1, 1949, \$82,278,600 represented debt for public service enterprises, consisting of municipal light plant

water departments, Rapid Transit loans, Hyde Park Street Railway loans and Traffic Tunnel loans in the city of Boston; and airport loans under section 8 of Chapter 44, General Laws in Fitchburg, Gardner and North Adams; and \$133,400,594 represented debt for general purposes such as highways, sewers, municipal buildings, land for parks and playgrounds, departmental equipment, Municipal Relief loans, veterans' housing loans and other purposes for which cities and towns have borrowed under the provisions of general laws and special acts of the legislature.

On January 1, 1950, the net funded debt of all cities and towns was \$228,007,040, an increase of \$12,327,822 over the amount of \$215,679,218 on January 1, 1949. Of the total amount outstanding, \$49,195,918 represented debt for public service enterprises, a decrease of \$33,082,706 below the amount on January 1, 1949 of \$82,278,624, and \$178,811,122 represented general debt, an increase of \$45,410,528 above the amount of \$133,400,594 on January 1, 1949. The reason for the large decrease in net debt for public service enterprises is because of the taking over of Boston subways by the Metropolitan Transit Authority under the provisions of Chapter 544 of the Acts of 1947, and the consequent increase in the sinking funds held by the city of Boston for Rapid Transit debt of approximately \$40,000,000.

On January 1, 1951, the net funded debt of all cities and towns was \$261,676,578, an increase of \$33,669,538 over the amount of \$228,007,040 on January 1, 1950. Of the total amount outstanding, \$53,567,820.69 represented debt for public service enterprises, an increase of \$4,371,903 during the year 1950, and \$208,108,757 represented general debt, an increase of \$29,297,635 during the year 1950.

The amount of net funded debt on January 1 of each year beginning with January 1, 1932 to January 1, 1951 is shown in the following table, together with the increase or decrease from the amount on January 1, of the preceding year.

1950	228,007,040	12,327,822	-
1951	261,676,578	33,669,538	-

The movement of debt over the period of years may be seen clearly in the above table. During the years from January 1, 1932 to January 1, 1938 the total debt decreased an amount of \$34,592,657, nearly eleven per cent of the amount on January 1, 1932. On January 1, 1939 there was an increase of \$11,479,973. Since 1939 there was a continuing decrease in the amount of debt until January 1, 1946 when the amount of

\$169,222,846 showed a decrease of nearly 40 per cent below the amount on January 1, 1938. The restrictions on construction work and the difficulties in obtaining new materials and equipment during the years of World War II accounted for part of the reduction in debt, so that it was expected that there would be a considerable increase in debt when those restrictions were removed. The figures for total outstanding debt on January 1, 1947 and for each subsequent year to January 1, 1951 have shown an increase of debt. However there has been a total decrease in net funded debt of all the cities and towns from January 1, 1932 to January 1, 1951 of \$54,808,021 or 17.3 per cent.

During the years since 1933 Municipal Relief loans have been issued in each year. These loans have been issued with the approval of the Emergency Finance Board established by Chapter 49 of the Acts of 1933 and continued by subsequent acts. Municipal Relief loans have been issued in each year for the purposes set forth in the various acts authorizing them, including the various classifications of public welfare, veterans' benefits, Federal unemployment relief projects, and the distribution of surplus commodities in cooperation with the Federal government. The present law, Chapter 108 of the Acts of 1951, authorizes expenditures in the years 1951 and 1952 for public welfare, including old age assistance and aid to dependent children, and for veterans' benefits. The aggregate amount of Municipal Relief loans issued by cities and towns from 1933 to January 1, 1951 inclusive is \$128,025,763.50.

The amount of Municipal Relief loans outstanding on January 1, 1949 was \$15,508,140, on January 1, 1950, \$12,907,100 and on January 1, 1951 \$9,389,000. Loans may be issued under the present law for not more than five years, the terms to be fixed by the board.

For purposes of record the amount of Municipal Relief loans issued by cities and towns in each year from 1933 to 1950 inclusive is shown in the following table:

Chapter 307, Acts of 1933	\$12,212,053.23
Chapter 335, Acts of 1934	1,533,500.00

STATISTICS FOR THE YEAR 1949.

The main body of this report includes tables showing the revenue and non-revenue receipts and expenditures in the year 1949 for all the cities and towns in Massachusetts, arranged in order of population as given by the preliminary count of the United States census, released on August 31, 1950. The final figures released for the census of 1950 differ slightly from these population figures, but our tabulation had progressed too far to make changes. The next report will show the cities and towns arranged according to the final figures for the census of 1950.

Tables are also given, which show total debt outstanding at the close of the year; total funded debt, arranged to show the relation of indebtedness to valuation; all debt transactions for the year; and cash balances, sub-divided to show the cash of trust and investment funds separated from general cash. (See Plan of the Report on page xiv.) The terms "revenue" and "non-revenue" are used in the sense defined in Chapter 44 of the General Laws as amended by Chapter 358 of Acts of 1946. "Revenue" means receipts from (1) the exercise of governmental power of taxation and police control; (2) donations, gifts, grants and subvention for governmental use; (3) performing services for compensation and from the operation and management of productive enterprises, investments, and properties of government. "Non-revenue" receipts consist of receipts from the sale or disposal of capital assets, from loans, refunds, transfers between departments and funds, and various temporary transactions.

Revenue for current charges as shown in the following analysis tables consists of all revenue receipts as shown in Table I of Part I, Part II, and Part III of the report, with the exception of grants and gifts for outlays, special assessments to meet outlays, and interest on sinking funds, with the addition of receipts from premiums on loans. Premiums are actually "non-revenue" receipts, but under Massachusetts law they must be used toward payment of charges for the issuing of notes and bonds and for the payment of the first instalment of debt due on the loan from which the premium was received. In cases where premiums are to be paid to sinking funds under the provisions of special legislative acts, they are treated as "non-revenue" receipts.

Current charges against revenue include the costs ordinarily chargeable to maintenance and operation of government, the interest on all debts of the municipalities, and the annual charges for payment of debt and contributions to sinking funds, except when such debt charges have been provided from "non-revenue" sources.

The term "outlays" represents expenditures for purchases of land and construction of permanent improvements, together with purchases of additional equipment which may be expected to last over a period of years, regardless of whether the appropriation was made from loans, grants or taxation.

Tables showing a comparison of revenue for current charges, current charges against revenue, and expenditures for outlays in the years 1945 and 1949 are presented herewith.

ANALYSIS OF REVENUE.

The comparison of revenue for current charges for the year 1949 with that of 1945 discloses an increase in the total amount from \$366,913,606 in 1945 to \$564,816,799 in 1949, an increase of 53.9 per cent over the four years. The per cent of revenue which each classification bears to the total has not varied significantly except in the

se of revenue from privileges, which consists mostly of the motor vehicle excise. Privileges in 1945 comprised less than one per cent of the total revenue, while in 1949 they comprised three and four-tenths per cent of the total.

Total receipts from taxes in 1949 were \$380,797,594 consisting of \$297,659,809 from property and poll taxes, and \$83,137,785 corporation and income taxes from the State. It should be noted that the amount of \$297,659,809 mentioned above does not represent the entire amount of taxes collected by the cities and towns, as the amount of the county tax is treated in our classification as an agency account. The aggregate amount of taxes for the county as shown in Table I for the cities, towns over 5,000 population, and towns under 5,000 population is \$17,360,369, including \$30,000 for Nantucket County paid by the town of Nantucket, and \$5,109,343.72 for Suffolk County, paid by the City of Boston. Combining the amount of the taxes for counties \$17,360,369 with the \$297,659,809 property and poll taxes for municipal purposes will give \$315,020,178 as the entire amount collected for property and poll taxes.

ANALYSIS OF CURRENT CHARGES

The comparison of current charges against revenue for the year 1949 with current charges for the year 1945 shows a total increase from \$345,809,586 in 1945 to \$542,933,544, an increase of 56.8 per cent over the four years. Total charges for maintenance and operation increased by 65.2 per cent, while debt and interest charges decreased by 10.8 per cent. The various classifications of departmental expenses show 6 abnormal increases, except that the charges for charities increased from 19.74 per cent of the total in 1945, to 24.23 per cent in 1949. Unclassified expenses in 1949 represented 4.18 per cent of the total. These expenses included a total of \$16,404,592.67 assessed upon the fourteen cities and towns of the Boston Metropolitan District for their portions of the Metropolitan Transit Authority deficiency.

ANALYSIS OF OUTLAYS

Total expenditures for outlays, or capital improvements, amounted to \$96,451,485.57 in 1949, while in 1944 the amount was \$13,901,248.83. Of the total amount expended in 1949, \$75,397,732.68 was for construction and improvements in the various departmental accounts; \$20,780,889.60 for public service enterprises; and \$272,863.29 for cemeteries. A large part of the \$8,352,795.18 reported as unclassified outlay was for veterans' housing projects.

For the convenience of persons using the report for a comparison over a period of years, we present on pages viii and ix tables showing the revenue for current charges, current charges against revenue, and the expenditures for outlays for the years 1937, 1938, 1939, 1940, 1941, 1942, 1943, 1944, 1945 and 1949.

While the term "current charges against revenue" has been used uniformly in these reports for maintenance charges, it should be borne in mind that during the years since 1933, a portion of these maintenance charges under the heading of charities has actually been paid from the proceeds of Municipal Relief loans which are classified as bonded general debt.

SUPPLEMENTARY TABLES

Tables are shown on pages xxvii and xxviii giving the total funded general and enterprise debt, with the sinking funds applicable to them at the close of each fiscal year from 1910 to 1949, and the ratio of the net general and the net enterprise debt to the assessed valuation. These statistics are shown for all municipalities, for the cities, the towns over 5,000 population and the town under 5,000 population.

The table on page xxix shows the total assessed valuation, the total net funded fixed debt, and the ratio of debt to valuation for each year from 1910 to 1949, together with the yearly increase or decrease in valuation and debt, and the percentage of such increase or decrease.

On pages xii and xiii there is shown a table giving a subdivision of the amount shown in Table I for the towns over 5,000 in population of expenditures for protection of persons and property, and health and sanitation.

On pages xxxi to lviii there are shown the tables of funded debt inside and outside the debt limit for all cities and towns prepared as of January 1, 1949, January 1, 1950, and January 1, 1951, mentioned on page ii of this introduction.

THE CERTIFICATION OF TOWN, COUNTY, AND DISTRICT NOTES.

Chapter 488 of the Acts of 1949 amended Chapter 35 of the General Laws by adding sections 39A to 39F, providing for the certification by the Director of Accounts of the notes of counties, in addition to those of towns and districts. This act became effective October 1, 1949.

The number of notes of towns, counties, and districts certified by this office in 1949 was 4,005, representing a value of \$21,399,053.28. Of these notes 3,466 having a value of \$3,886,279.57 were for funded debt, and 539 notes having a value of \$17,512,773.71 were for revenue and other temporary loans.

In the year 1950, the number of notes certified was 6,515, representing a value of \$33,121,335.02. Of these notes 5,757 having a value of \$6,084,544.00 were for funded debt, and 758 notes having a value of \$27,036,791.02 were for revenue and other temporary loans.

In the year 1951, the number of notes certified was 3,696, representing a value of \$29,006,488.98. Of these notes 3,007 having a value of \$3,261,129.30 were for funded debt, and 689 notes having a value of \$25,745,359.68 were for revenue and other temporary loans.

The number of notes certified in each year and the amount of loans represented by them since the act requiring the certification of town notes took effect on January 1, 1911, are shown in the following table:

THE AUDITING OF ACCOUNTS AND THE INSTALLATION OF ACCOUNTING SYSTEMS.

During the year ending April 30, 1949, 351 audits were made for cities and towns, and 27 for fire, water, light, and improvement districts; during the year ending April 1950, audits were made for 297 cities and towns, and for 29 districts; during the year ending April 30, 1951, audits were made for 294 cities and towns, and 30 fire, water, light, and improvement districts, and two additional systems of accounts were installed.

The office receives frequent expressions of gratitude from local officials for the assistance and advice given them in their accounting work and financial problems.

CONCLUSION.

The office continues to serve the public by giving statistical presentations of the cost of government, by the auditing of municipal accounts and the installation of accounting systems, and by the certification of notes for towns, counties, and districts. The auditor and assistant directors give advice and information regarding the duties of financial officers of the municipalities, and give assistance to them in regard to the financial problems of the municipalities when requested.

Information regarding receipts and payments, tax rates, debt authorizations, outstanding debt, uncollected taxes, and related matters is frequently requested and promptly furnished.

Respectfully submitted,

FRANCIS X. LANG,
Director of Accounts.

PLAN OF THE REPORT.

The statistical presentations of this report, following the introductory matter, are arranged in three principal parts, devoted respectively to the finances of (I) the 39 cities; (II) the 100 towns having a population of 5,000 or over; and (III) the 212 towns having a population of less than 5,000. In all the tabulations, unless otherwise indicated, the cities and towns are arranged in order of population for convenience of comparison.

PART I. — CITIES.

This part is subdivided as follows:— (A) Summary of Financial Transactions (B) Receipts from Revenue; (C) Payments for Maintenance and Interest; (D) Indebtedness; and (E) Cash Balances.

(A) *Summary of Financial Transactions.*

This division consists of a summary table (designated Table I) or general survey of all the financial transactions of the 39 cities of the Commonwealth (pp. 4-27). The transactions of the city of Boston are presented on a separate page, since they are so much larger than those of other cities as to be scarcely comparable. Those of other cities are arranged, for purposes of comparison, in groups of four municipalities to a page, in the order of population of the United States census of 1950.

(B) *Receipts from Revenue.*

Table II (pp. 30, 31) shows receipts from *General* and Table III (pp. 32, 33) receipts from *Commercial* Revenue. The former consists of taxes, licenses and permits, fines and forfeits, grants and gifts, and all other general revenue; while the latter is composed of revenue from special assessments (whether for expenses or outlays), privileges departmental earnings, public service enterprises, cemeteries, and interest.

Table IV (pp. 34-43) is an exhibit of classified Departmental Earnings (being the detail of Column D of Table III), from which may be seen the amount of revenue received by the several municipalities from their various departments. Receipts under the heading of *Unclassified* are not included.

Table V (p. 44) is a tabulation of interest receipts classified to show the amount of interest derived from money on deposit, from deferred taxes and special assessments, from public trust funds (sub-classified according to particular funds, so far as is practicable), from investment funds, and from miscellaneous sources.

Table VI (p. 45) presents a summary of revenue receipts, giving within the scope of a single table in a form convenient for comparison the receipts from all sources of revenue of the 39 cities.

(C) *Payments for Maintenance and Interest.*

The tables in this division, VII to IX, inclusive (pp. 48-70) exhibit gross payments, classified in detail on account of the maintenance cost exclusive of interest, of the various departments or kinds of municipal services.

Table X (p. 71) is a tabulation of interest payments classified to show the amount of interest paid on the various kinds of municipal debt, together with the interest on metropolitan assessments for sewer, park, and water purposes, on county hospital assessments, and miscellaneous debt not specified.

From this table we note that the total interest payment of the 39 cities for the year 1949 was \$6,501,507.09 of which \$2,166,419.52 or 33.32 per cent was for interest on general and cemetery debt; \$591,945.28 or 9.10 per cent was interest on revenue and other temporary loans, \$3,433,979.05 or 52.82 per cent was interest on public service enterprise debt; and the remaining \$309,163.24 or 4.76 per cent was for interest on metropolitan and county assessments and miscellaneous debt.

(D) *Indebtedness.*

Table XI (p. 74) shows the outstanding indebtedness classified by the character of the obligation. This table includes the various classifications of temporary debt, as well as the gross funded or fixed debt.

Table XII (p. 75) gives the relation of the total net funded or fixed debt to valuation, the valuation figures as reported to the Tax Commissioner being used. The net funded or fixed debt is found by deducting from the total funded or fixed debt the

amount which has been set aside in sinking funds to pay the debt when due. When bonds in anticipation of bond issues are reported, although they are of a temporary character, they are in reality *fixed debt*, since they have no assets as an offset, and are included in Table XII in the total of funded or fixed debt, and are reckoned in determining the net debt.

Table XIII (p. 76) shows the debt transactions for 1949 classified according to the character of the obligation; Table XIV (p. 77) shows separately the payments to the State sinking and loan funds; and Table XV (p. 78) shows the method of meeting debt requirements from taxation.

The table of debt transactions (p. 76) shows the amount of debt incurred during the fiscal year 1949 for the several purposes specified, and the amount of debt cancelled during the year, excepting payments to the State sinking and loan funds on account of metropolitan assessments for sewer, park, and water purposes, and payments to counties on account of debt incurred for hospital purposes. Included in the term "General Loans" are all loans issued for general purposes, whether specified as for school, fire, police, highway, or other purposes. A classification of these loans issued during the year 1949 will be found in the introduction to this report.

(E) *Cash Balances.*

Table XVI (p. 80) shows the amount of cash on hand held by the treasurer and departments at the beginning and close of the fiscal year 1949.

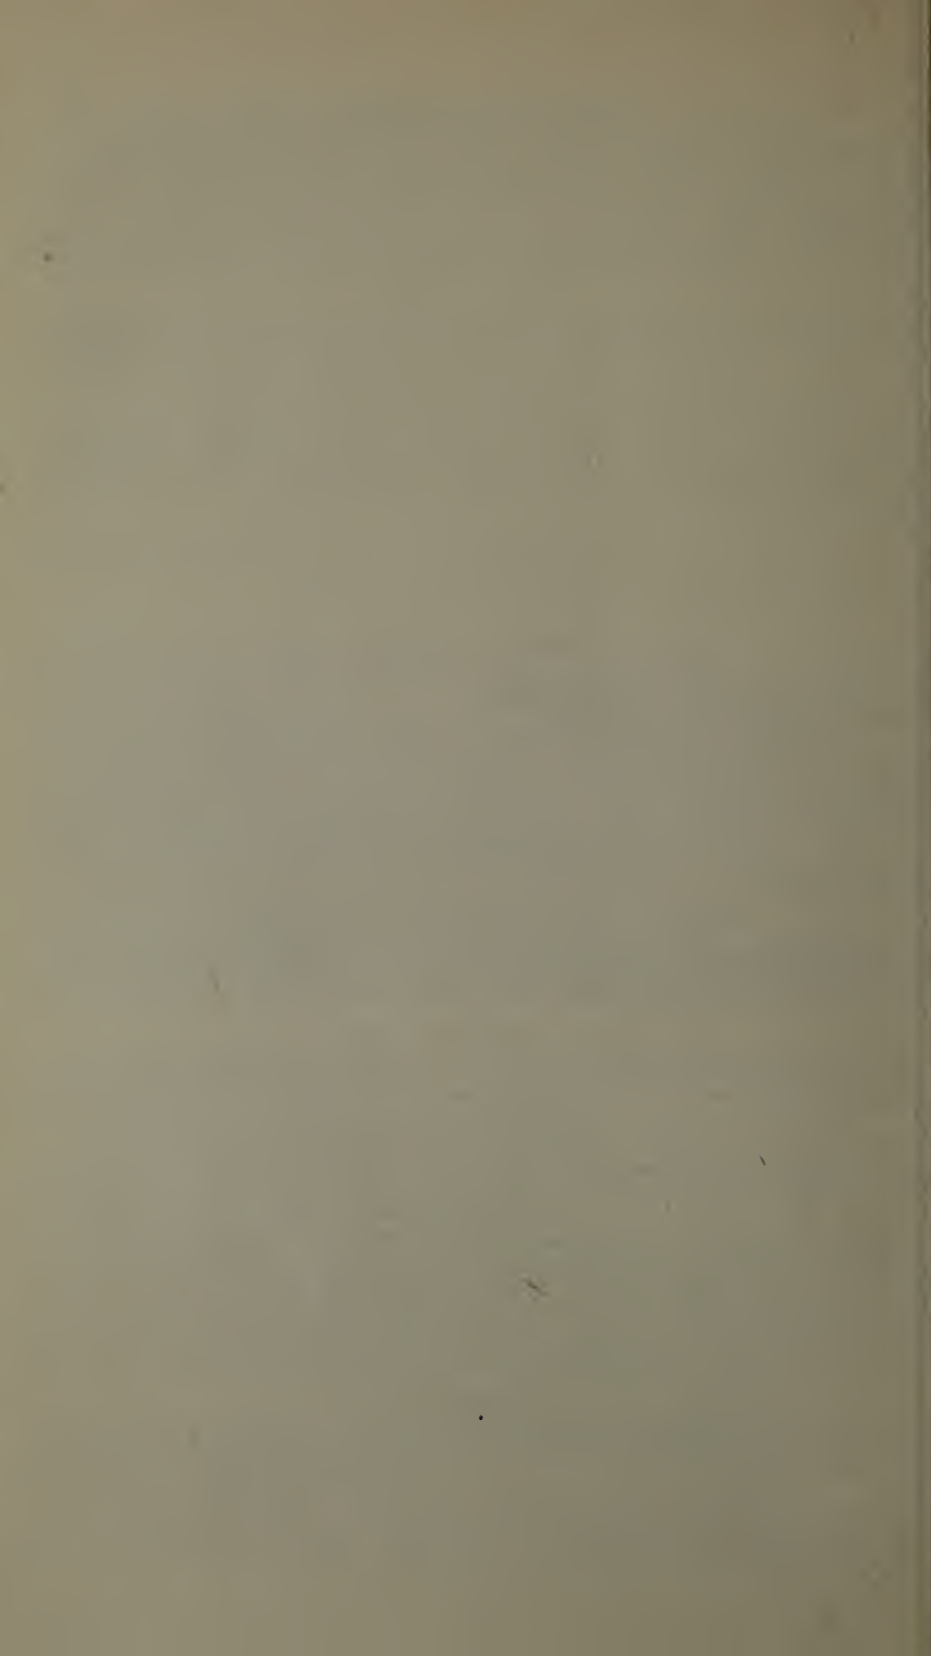

PART II. — TOWNS OVER 5,000 POPULATION.

The subdivisions of this part are as follows: — (A) Summary of Financial Transactions; (B) Indebtedness; (C) Cash Balances.

The tables in Division A, *Summary of Financial Transactions* (pp. 84-137) are similar in form and detail to those given for the cities in Part I, the towns being arranged in groups of four, according to population, with the exception of Brookline, the largest town, which is presented separately as its transactions are scarcely comparable with those of any other town. The tables in the division devoted to *Indebtedness* (I, III, IV, V, and VI, on pp. 140-149, inclusive) are similar to those given for the cities. The statements of *Cash Balances* (pp. 152-154) for the towns are also self explanatory.

PART III. — TOWNS UNDER 5,000 POPULATION.

The subdivisions of this part are as follows: — (A) Summary of Financial Transactions; (B) Indebtedness; (C) Cash Balances. They are presented on the same plan as the towns of over 5,000 population, which are shown in Part II.

TABLE XII. — *Relation of Indebtedness to Valuation — 1949.*

NOTE. — The valuation given in this table is the assessors' valuation of real and personal property as of January 1, 1949, together with the supplemental assessment of December, 1949, and the valuation of motor vehicles for the year 1949.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total debt shown in Table XI, which includes funded or fixed debt, and also temporary debt. If the amount of loans in anticipation of revenue, in anticipation of State and Federal grants for airport, in anticipation of highway reimbursement from State and County, and outstanding warrants or orders is deducted from the total debt shown in Table XI, the result will give the funded or fixed debt shown in Table XII. Loans outstanding in anticipation of revenue are considered as funded or fixed debt.

The sinking funds in Boston were increased in 1949 by the amount of bonds of the Boston Metropolitan district paid to the sinking fund upon the transfer of the subways and tunnels of the Boston Transit Department to the Metropolitan Transit Authority. These bonds amounted to \$39,921,773.78 on December 31, 1949, as shown in the statement of the Board of Commissioners of Sinking Funds of Boston.

TABLE XIII. — Debt Transactions for 1949 Classified by Character of Obligation.

NOTE.—The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State (see Table XIV, p. 77), nor payments to counties on account of debt incurred for hospital purposes (see Table XV, p. 78). For this reason the total amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 4 to 27, under the section "Municipal Indebtedness."

TABLE III. — *Relation of Indebtedness to Valuation — 1949.*

NOTE.—The valuation given in this table is the assessors' valuation of real and personal property, as of January 1, 1949, together with the supplemental assessment of December, 1949, and the valuation of motor vehicles for the year 1949.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total debt shown in Table II, which includes funded or fixed debt and also temporary debt. If the amount of loans in anticipation of revenue, in anticipation of highway reimbursement, and unpaid warrants or orders is deducted from the total debt shown in Table II, the result will give the funded or fixed debt shown in Table III.

TABLE IV. — *Debt Incurrences for 1899 Classified by Character of Obligation.*

NOTE. — The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State (see Table V, p. 148), nor payments to counties on account of debt incurred for hospital purposes (see Table VI, pp. 148 and 149). For this reason the total amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 84 to 137, under the section "Municipal Indebtedness."

¹ Anticipation State and Federal grants for airport.

1 Anticipation State and Federal

² Anticipation serial water loan.

* Includes anticipation serial water loan \$367,000, and anticipation State and Federal grants for airports \$100,000.

TABLE III. — *Relation of Indebtedness to Valuation — 1949.*

NOTE. — The valuation given in this table consists of the assessors' valuation of real and personal property as of January 1, 1949, together with the supplemental assessment of December 1, 1949, and the valuation of motor vehicles for the year 1949.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total shown in Table II, which includes funded or fixed debt and also temporary debt. If the amount of loan anticipation of revenue, in anticipation of highway reimbursement, in anticipation of State and Federal grants for airports, and unpaid warrants or orders is deducted from the total debt shown in Table II, the result gives the funded or fixed debt shown in Table III. Loans in anticipation of funded serial debt are included funded or fixed debt.

Fifty-five towns having an aggregate population of 72,001, and having no funded or fixed debt are omitted from this table.
